CHEMICAL GEOLOGY

OFFICIAL JOURNAL OF THE EUROPEAN ASSOCIATION FOR GEOCHEMISTRY

VOLUME 60 NO. 1/4 **CONTENTS** **MARCH 10, 1987**

(Abstracted/indexed in: *Bull. Signal., Chem. Abstr., Curr. Contents, Geo Abstr., Geosci. Contents, Am. Geol. Inst. Bibliogr. Index Geol.*, and *Mineral. Abstr.*)

Special Issue *"Proceedings of An International Seminar on Laterite, October 14–17, 1985, Tokyo, Japan"*, by Y. OGURA (Guest-Editor)

Preface, by Y. Ogura (Guest-Editor) vii

Opening Address, by Y. Kuroda (Chairman of the Organizing Committee/Chairman of the Japan I.G.C.P. National Committee) 1

Plenary Lectures

A basis for geochemical exploration models for tropical terrains
C.R.M. Butt (Wembley, W.A., Australia) 5

Minerals formed and mineral formation from volcanic ash by weathering
K. Wada (Fukuoka, Japan) 17

I. *Genesis of Weathering Processes*

I-*1* The role of cationic and anionic scavengers in laterites
R.A. Kühnel (Delft, The Netherlands) 31

I-*2* Mobilities of alkalis, alkaline earths and halogens during weathering
B.I. Kronberg (Thunder Bay, Ont., Canada), H.W. Nesbitt and W.S. Fyfe (London, Ont., Canada) 41

I-*3* Some unusual geochemical features of the oxidized zone at the central sector of the Singhbhum copper belt, India
A. Mookherjee (Kharagpur, India) and S.G. Tenginkai (Dharwad, India) 51

I-*4* Geochemical and textural characterization of laterites of southeastern Nigeria
M.N. Oti (Port Harcourt, Nigeria) 63

I-*5* Concentration mechanisms of iron oxides and alumina in deep weathering crusts (Goshikidai, Kagawa, western Japan)
H. Minato, A. Tokuyama (Kato-gun, Japan) and N. Sasaki (Takamatsu, Japan) 73

I-*6* Detailed geochemical studies of the initial stages of weathering of alkaline rocks: Ilha de São Sebastião, Brazil
B.I. Kronberg (Thunder Bay, Ont., Canada), K. Tazaki (London, Ont., Canada) and A.J. Melfi (São Paulo, Brazil) 79

I-*7* Physico-chemical mechanisms of weathering processes and corresponding models of dynamics of mineral zonality evolution
E.V. Dobrovolsky (Kiev, U.S.S.R.) 89

I-*8* Thermodynamic and kinetic aspects of formation of bauxites
M.P. Tole (Nairobi, Kenya) 95

I-*9* Mineralogy and chemistry of different fractions of some soil laterites from northeast Brazil
S. Malomo (Ile-Ife, Nigeria) 101

I-*10* The micro-chemistry of uraniferous laterites from Brazil: A natural example of inorganic chromatography
O.H. Leonardos (Brasília, Brazil), S.M. Fernandes (Ouro Preto, Brazil), W.S. Fyfe and M. Powell (London, Ont., Canada) 111

I-*11* Geomodelling of certain bauxite profiles from Kutch, Gujarat state, India
K.S. Balasubramaniam (Bombay, India) 121

I-*12* Changes of specific heat capacity and heat capacity during weathering
T. Hatta (Niigata, Japan) 131

I-*13* Metals in a lateritic peat deposit — A case study from Sri Lanka
C.B. Dissanayake (Peradeniya, Sri Lanka) 137

I-*14* Mineralogical properties of halloysites of weathering origin
K. Nagasawa and H. Noro (Shizuoka, Japan) 145

(continued on the last page in this issue)

CONTENTS *(continued from page 2 of the outside cover)*

I-*15* Weathering of apatite under extreme conditions of leaching
K. Tazaki, W.S. Fyfe (London, Ont., Canada) and C.B. Dissanayake (Peradeniya, Sri Lanka) 151

I-*16* Mineral distribution and feldspar weathering in a saprolite from northeastern Nigeria
G.F. Tietz (Erlangen-Nürnberg, Federal Republic of Germany) 163

I-*17* The thermal reaction of Venezuelan lateritic bauxites with glycerol
E. Mendelovici, A. Sagarzazu and R. Villalba (Caracas, Venezuela) 177

I-*18* Origin of minerals with intermediate chlorite–vermiculite structure (Szklary, Poland)
A. Wiewióra and Elzbieta Dubińska (Warsaw, Poland) 185

I-*19* Analysis of natural and beneficiated ferruginous bauxites by both X-ray diffraction and X-ray fluorescence
H. Schorin and O. Carías (Caracas, Venezuela) 199

I-*20* Current research at CSIRO Australia on multi-element laterite geochemistry for detecting concealed mineral deposits
R.E. Smith (Perth, W.A., Australia) 205

II. *Mineral Composition of Weathering Profiles*

II-*1* The Mount Saddleback bauxite deposit, southwestern Australia
P.J. Ball (Boddington, W.A., Australia) and R.J. Gilkes (Nedlands, W.A., Australia) 215

II-*2* Genesis of certain bauxite profiles from India
K.S. Balasubramaniam, M. Surendra and T.V. Ravi Kumar (Bombay, India) 227

II-*3* Petrology and mineralogy of 'laterites' in southern and eastern Australia and southern Africa
A.R. Milnes, R.P. Bourman and R.W. Fitzpatrick (Glen Osmond, S.A., Australia) 237

II-*4* Lateritisation of gabbro–granophyre rock units of the Ezhimala Complex of north Kerala, India
Narayanaswamy and S.K. Ghosh (Trivandrum, India) 251

II-*5* Relation between chemical composition and particle-size distribution of ores in the profile of nickeliferous laterite deposits of the Rio Tuba Mine, Philippines
Y. Ogura (Tsukuba, Japan), K. Murata and M. Iwai (Tokyo, Japan) 259

II-*6* Lateritization cycles and their relation to the formation and quality of kaolin deposits in south Kerala, India
K. Soman (Trivandrum, India) and A.D. Slukin (Moscow, U.S.S.R.) 273

II-*7* Uranium-bearing phoscrete from Mali, West Africa
S. Hirono, K. Hirakawa and K. Hanada (Okayama, Japan) 281

II-*8* Lateritised gravel bed: A new guide horizon for lateritic gold?
A. Bhaskara Rao (Brasília, Brazil) 287

II-*9* Guide horizons for gold mineralisation in lateritic crusts
A. Bhaskara Rao (Brasília, Brazil) 293

II-*10* Geochemical behaviour of iron and manganese ions in the Ningyo-Toge uranium deposit district, southwest Japan
K. Watanabe (Matsumoto, Japan) 299

II-*11* Lateritisation as a possible contributor to gold placers in Nilambur Valley, southwest India
N.G.K. Nair, M. Santosh and R. Mahadevan (Trivandrum, India) 309

III. *Soil Formation*

III-*1* Red and yellow soils and laterite formation in the Northeast Plateau, Thailand
I. Kheoruenromne (Bangkok, Thailand) 319

III-*2* Mineralogy and geochemistry of lateritic soil profiles in Kerala, India
B.C. Raymahashay, K.S. Rao, V.K. Mehta and P.R. Bhavana (Kanpur, India) 327

III-*3* Ferreto soils at the southeastern margin of the Bohemian Massif — A mineralogical and geochemical characterization and its application in stratigraphy
Bohumila Bezvodová (Prague, Czechoslovakia) 331

III-*4* On the origin and age of the Steep Rock buckshot, Ontario, Canada
A. de Barros Machado (Lisbon, Portugal) 337

III-*5* Considerations on the evaluation of the fertility of oxisols in Brazil
M. Miyake (Yatabe, Japan) 351

III-*6* The use of ground rocks in laterite systems: An improvement to the use of conventional soluble fertilizers?
O.H. Leonardos (Brasília, Brazil), W.S. Fyfe (London, Ont., Canada) and B.I. Kronberg (Thunder Bay, Ont., Canada) 361
